Workflow and sign-in

Attach this note with the workforce roster site. Every account uses the same demo password.

1. Open the site

Local demo: http://localhost:5173
Single-server deploy (Docker): http://localhost:8000
Password for every account below: demo123

2. Workflow

The site covers 1-30 November 2026 for 40 agents. Team Leads record attendance. RTA changes who is scheduled to work. Agents can open only their own record. The daily surplus is calculated from the roster.

1 **Sign in**
Use a username from the tables below and the password demo123. The header shows RTA, the Team Lead name, or the agent id. Sign out is on the right.

2 **Daily dashboard**
Pick a date. The tiles show forecast volume, required agents, scheduled headcount, Present FTE, leave, capacity hours, and center surplus. Team, Team Lead, agent, and status filters change only the selected-group counts. The center surplus always uses all 40 agents.

3 **Monthly roster**
The month is shown one week at a time, Sunday to Saturday. Click a cell to open that day. Colors show the attendance status. Download the filtered roster as CSV from this page.

4 **Team Lead saves attendance**
tl1 to tl4 can update only their own 10 agents, and only on a Working day. Choices are Present, Sick Leave, BL, PL, Unplanned Leave, Comp Off, Floating Holiday, Special Leave, and NCNS. A leave can be a full day or a half day. NCNS and Unplanned Leave need a comment. A weekly off cannot be edited here.

5 **RTA changes the schedule**
Sign in as wfm. On a cell, change Working to Weekly Off, or Weekly Off to Working. RTA does not submit leave. Turning a weekly off into a working day sets that agent to Present.

6 **Agent reviews their own month**
Sign in with the agent id, for example AGT001. The page shows that agent's name, team, Team Lead, shift, present days, leave days, and weekly offs. The agent cannot change attendance.

7 **Charts and audit**
Charts are center-wide: required agents versus Present FTE, forecast volume, the attendance mix, and daily surplus. Audit lists each saved change with the previous value, the new value, who saved it, and the comment. It stays empty until the first save.

8 **Company demo on 2 November**
Sign in as tl1. Before any edit the day shows volume 890, required 26.4, scheduled 40, Present FTE 37, absent FTE 3, capacity 267.33 hours, surplus +10.6. Mark AGT001 as full-day Sick Leave. Scheduled stays 40, Present FTE becomes 36, and surplus becomes +9.6. Open Audit to show that row. Sign in as tl2 to show that AGT001 cannot be edited. Download the daily staffing report from the dashboard.

3. Staff logins

Password for each row: demo123

Username	Password	Role	Access
wfm	demo123	RTA	Schedule Working or Weekly Off for all agents
tl1	demo123	Team Lead 1	Attendance for AGT001 to AGT010
tl2	demo123	Team Lead 2	Attendance for AGT011 to AGT020
tl3	demo123	Team Lead 3	Attendance for AGT021 to AGT030
tl4	demo123	Team Lead 4	Attendance for AGT031 to AGT040

4. Agent logins

Username is the agent id. Password for every agent is demo123. Each Team Lead owns 10 agents, spread across Alpha, Bravo, Charlie, and Delta.

Username	Name	Team	Team Lead	Password
AGT001	Agent 1	Alpha	Team Lead 1	demo123
AGT002	Agent 2	Bravo	Team Lead 1	demo123
AGT003	Agent 3	Charlie	Team Lead 1	demo123
AGT004	Agent 4	Delta	Team Lead 1	demo123
AGT005	Agent 5	Alpha	Team Lead 1	demo123
AGT006	Agent 6	Bravo	Team Lead 1	demo123
AGT007	Agent 7	Charlie	Team Lead 1	demo123
AGT008	Agent 8	Delta	Team Lead 1	demo123
